AmZetta zTC Thin Client (Model SC03150T)

Powerful. Simple. Versatile.

Introducing the AmZetta zTC SC03150T Thin Client – the first thin client with the simplicity, power, and versatility that truly meets   the needs of dynamic Virtual Desktop Infrastructures (VDI) for businesses and enterprises alike. The zTC SC03150T Thin Client offers extreme user performance, an intuitive management interface, and seamless integration into existing VDI environments – all from a technology industry veteran with unparalleled product integrity and support.

Powerful

AmZetta's zTC Thin Client incorporates   the robust hardware required for all basic user workloads - from simple task operations to graphic-intensive applications. The zTC is powered by a Quad-core, 1.4GHz AMD A6-1450 processor, 4GB of DDR3 RAM and 32GB SSD storage that can be upgraded up to 128GB for users with greater capacity needs. Featuring a full array of powerful hardware, the zTC Thin Client is suited to deliver the high performance and reliability that is essential to organizations' ever-growing performance demands.

Simple

The zTC Thin Client was designed to remove the complexity that is traditionally associated with VDI infrastructures - for both the user and administrator alike. The zTC's compact and low-profile design requires much less physical space and power than a desktop tower - giving end users a more modern, simplistic and low-maintenance workstation. The zTC also includes the AmZetta Client Manager (ACM) software, which allows administrators to easily manage their entire client infrastructure from a single management interface.

Versatile

The AmZetta zTC Thin Client provides the versatility to adapt to users' needs as they evolve over time. The zTC seamlessly integrates into existing VDI infrastructures, allowing companies to integrate clients at their own rate as they grow and phase out aging technology. With support for multiple VDI protocols, including VMware, Citrix, and Microsoft, as well as cloud-based VDI support, the zTC is instantly compatible with virtually every current VDI environment. Additionally, the zTC Thin Client supports various external devices via inclusive Wi-Fi® and Bluetooth®, making the zTC adaptable to practically any user's needs and suitable for infrastructures requiring highly-versatile client solutions.

Wi-Fi® is a registered trademark of Wi-Fi Alliance. Bluetooth® is a registered trademark of Bluetooth SIG, Inc.

Conclusion

The zTC SC03150T is the premier end-user thin client device for companies seeking extreme performance, intuitive simplicity, and adaptable versatility for their employees' daily workloads. With formidable hardware and unrivaled support and software compatibility in an innovative, compact form factor, the zTC Thin Client is poised as the leading thin client solution to meet the various, and often unpredictable, needs of both modern businesses and enterprises.

AmZetta zTC SC03150T Thin Client Specifications	
CPU	Quad-Core (1.4GHz)
RAM	4 GB RAM Memory
Flash	32 GB SSD Storage
Wireless	Wi-Fi & Bluetooth
USB 2.0 Port	4 x USB 2.0
USB 3.0 Port	2 x USB 3.0
Supported Protocols/Brokers	VMware, Citrix, Microsoft
Cloud Support (PCoIP)	AWS, Google Cloud, Microsoft Azure
Display Ports	1 x HDMI, 1 x VGA
Microphone/Audio	Built-in Microphone/Headphone input
Network Port	1 x 1 Gb RJ45 port
Graphics	Radeon HD
Security	Kensington Lock
Dual Monitor Support	Yes
Power	12 W
Operating Temperature	50° to 111° F (10° to 44° C)
Dimensions	6.3" x 4.2" x 1.3" (16cm x 10.7cm x 3.3cm)
(WxDxH)	14" model: 1.26 kg (2.78 lbs)
Weight	1.63 lbs (0.74 kg)
Operating System	zOS
