

z40 | zWAN GATEWAY ROUTER

SD-WAN Network Appliance for Offices, Branches, Retail Locations & Remote Users

The zWAN z40 is a multi-WAN router that provides one 5G SIM slot, dual 4G LTE SIM slots and up to three RJ45 WAN ports for ultimate connectivity and deliver the features and functions of zWAN. The z40 is ideal for small-to-medium offices, branch offices, retail locations, remote site locations and remote users. The z40 connectivity utilizes T-Mobile service which can be configured as a primary WAN connection, a secondary backup WAN connection or a tertiary WAN connection that bonds all three SIMs for High Availability and Network Balancing. Always Connected Internet (ACI) is achieved by utilizing the multi-WAN connections which ensures your offices and users are always connected and operational.
